25X1A

Dear Dan:

This proposal covers the cost of certain spare items which were furnished for use with System 4 and are not a part of our present recommended Fly-Away Kits for that System (Equipment List AA). This is the proposal mentioned in our letter CMCC Doc. No. 151x5.831 dated 18 November 1957.

At the time of the "crash" delivery of System 4, serial numbers 100 and 101, we were requested to ship spares for support. This request came before our recommendations were firm and resulted in the shipment of items that were not ultimately included in the Fly-Away Kit for System 4. The attached "Emergency List of System 4 Spares" details the descriptions and costs of these items. All the listed items were shipped on shipping document MP-254, dated 26 September 1957, and receipted for by Bob W's people.

The estimated cost of this list of items is \$2,980.93, and the fee computed on that amount at 8.25% is \$245.93. The total estimated cost including fee is \$3,226.86. Since the work was accomplished in 1957, we have used the overhead and G&A rates in effect at that time.

We would appreciate your early approval of this proposal.

Sincerely,

Dean
